Your ranking results explained:

'Organic' - these are rankings for the URL (website address) you provided.

'Places' - these are rankings for your Google Places listing which appears in main Google results.

'Local' - these are rankings for your Yahoo local or bing local listing which appears in main Yahoo/Bing results.

'Directory' - these are search results which mention your business name but aren't your website. These are usually well known directories or sites like Facebook which you are listed on. The search engines crawl these sites and show results for them in their search results.

'Secondary' - these are similar to directory results but for less well known sites or sites which we haven't classified as directories.
